Tools and Weapons in ECONOMIC WARFARE And Reviving Of ECONOMIC NATIONALISM

By Expert **CHRISTIAN HARBULOT**

PARIS - ROME - WASHINGTON, 22.05.2017, 09:14 Time

USPA NEWS - We can define Economic Warfare or Economic War as involving an Economic Strategy based on the use of Measures of which the Primary Effect is to Weaken the Economy of Another State. Economic Warfare aims to capture or otherwise control the supply of critical Economic Resources...

We can define Economic Warfare or Economic War as involving an Economic Strategy based on the use of Measures of which the Primary Effect is to Weaken the Economy of Another State. Economic Warfare aims to capture or otherwise control the supply of critical Economic Resources. Today, Information must be considered as a Source of Energy, an immaterial form of energy. The easy access of Economic Intelligence creates Opportunities as well as Threats. Economic Intelligence means Smart Information Management in order to know, understand and anticipate the outside environment to prevent risks.

For all International Players, be they States, Big Firms, or Non-State Organisations, Economic Intelligence is a Tool for Competition as well as a Tool for Governance and for National Security. The ultimate goal of Economic Intelligence and Knowledge Management is to produce added value. Economic Nationalism is an Umbrella Term that includes Economic Policies and Theories designed to improve the Domestic Economy relative to Foreign Economies. It therefore subsumes Theories such as Economic Patriotism, Protectionism, and Mercantilism, all of which are different forms of Economic Nationalism.

Christian HARBULOT is an International Expert on Economic Intelligence and Director of the 'School of economic War'. He just published at VA Editions a Book titled 'Le Nationalisme Economique Americain - The American Economic Nationalism'. This Book was inspired by the recent Election of Donald Trump as new President. With Donald Trump in the White House, observers are still asking what in his message resonated with enough voters to put him over the top in the electoral college. Theories include Economic Anxiety, Racial Resentment, Authoritarianism and much more.... Anyway, Nationalism and Americanism remain Topics in the Modern United States.

The earliest manifestation of Nationalism, as opposed to mere Patriotic Impulses, was the rejection of an Ancien Régime and the transfer of Sovereignty from Monarch to People. When the Nation demands the Supreme Loyalty of its Citizens, the Freedom of the Individual may be sacrificed to the Welfare of the State. In this elevation of the State there is the concomitant denigration of the Outsider and the temptation to advance the Nation at the expense of other Nations....

The first problem, then, in defining American Nationalism is to identify it. Most of the elements making up America's self-image of a divinely favored Nation still survive. The Author of the Book explores the progress of the practice of American Nationalism through the History of the American Nation...

The second Book is an Essay published at Editons VA Press by Giuseppe GAGLIANO (Philosopher and President at Center for Strategic Studies Carlo De Cristoforis), explaining the Thought of Christian HARBULOT regarding the 'War and Economic Intelligence'. Preface by Nicolas MOINET.
