Children of earth
Its joy and its worth
To love and protect
Not to badly affect
From soil we came
Humans we became
On earth we live
In God we believe
With him we seek peace
While we rest at ease
We destroy and deceive
We waste what we receive

We don't appreciate ourselves We poison and paralyze our lives We pollute what we need We are stupid indeed We hurt our mother nature We take it for granted however Nothing will stay forever Only our crimes will never Never be gone or forgiven As we are killing our children Generation after generation It's high time we took action We better be safe than sorry We should be careful and worry About what will happen in the future What will become of our beautiful nature Die old or young It won't matter for so long When all we care about is money Not our children's health harmony Oh dear God what else to say Diseases always find their way Our beloved ones in danger Dying from diabetes and cancer A one time disorder Becomes a lifetime torture
